

Superb Baf Mar

Sea Bass · *Dicentrarchus labrax*

The Seabass grower feeds are formulated with highly digestible, carefully selected raw materials to maximize nutrient utilization and feed efficiency. Their balanced nutritional profile supports healthier, stronger and more resilient fish. The enriched Vitamin C and Vitamin E content helps reduce stress before harvest and supports the desired flesh quality after harvest.

◆ KEY BENEFITS

- Improved growth performance
- Healthy digestive system
- Better feed utilization and lower waste through carefully selected, highly digestible ingredients
- Low FCR and higher biomass gain
- Consistent achievement of desired flesh quality
- Protection against environmental and management-related stress factors
